

## Inductive Bible Study:

Verse: \_\_\_\_\_

Pick a few verses from the Bible, then complete the following steps to study God's Word. Let the Bible, God's Word speak to you. Make observations about the text first. Identify who wrote it, who it was written to, what was happening, repeated, and more. Then interpret the verses. Determine what God is telling us through these verses and what it means to us. Lastly, apply what you learn to your personal life. Ask yourself: "What does God want to me do?" or "What does God want me to learn from the text? What does He want me to say to a friend? What should I begin in my life, or stop doing?" God loves you and will speak to you through His word.
